

Same-Day Surgery 1992 Index

Abdominal procedures

- ASC lithotripsy rates back at square one after ruling, AUG:131
- Is laparoscopic cholecystectomy too good to be true? AUG:117
- New form helps determine qualifications for credentials, AUG:120
- NY department suggests criteria for training, AUG:119

Accreditation

- FASCs may avoid paperwork under accrediting change, MAY:86
- Joint Commission drops 100% surgical review, SEP:142
- Joint Commission's latest move is toward traditional QA, DEC:186
- Organization, preparation: Keys to accreditation survey, FEB:16

Anesthesia

- Could pain management be the next big profit center? NOV:161
- Hot line answers calls on malignant hyperthermia, FEB:27
- Technique may reduce need for drugs, hasten recovery, JAN:1

Ambulatory patient groups (APGs)

- Coding plays critical role in surviving new payment system, OCT:148
- The \$10 million question: Are you ready for APGs? OCT:145
- Warning: APGs may lead to Medicare managed care, MAY:77

Coding

- Coding plays critical role in surviving new payment system, OCT:148
- RBRVS alters coding for outpatient surgery, APR:74

Cost containment

- Consider group purchasing for savings of 25% or more, AUG:129
- Cost control hints pave way for more profitable 1990s, FEB:18
- Hospital shares \$25 solution for heating disinfectant, SEP:140

Discharge

- Scoring system tested on ambulatory surgery patients, FEB:13

Documentation

- New perioperative record saves time, cuts paperwork, JUN:96

Environment

- ASCs and the environment: Friends or foes? AUG:125
- Consider donating supplies, equipment to needy groups, AUG:126
- Groups transmit supplies to Third World countries, AUG:127

Federal action

- ASC lithotripsy rates back at square one after ruling, AUG:131
- ASCs must develop plan for bloodborne pathogens, APR:66
- ASCs must meet new rule for accessibility to disabled, JAN:3
- Breast implant restrictions limit augmentation options, JUN:99
- Include these steps in training program, APR:69
- New standard: Don't be stingy with the pain medication, JUN:89
- Orcolon recall points to need for fixed notification process, JAN:10
- Surgery centers wrestling with breast implant publicity, MAR:32

Finances

- Additions to ASC list could financially wound hospitals, MAR:29
- ASC lithotripsy rates back at square one after ruling, AUG:131
- Coding plays critical role in surviving new payment system, OCT:148
- Emphasize both cost and care in managed care contracts, APR:64
- Half of hospitals may lose with outpatient PPS proposal, APR:61
- HCFA delays regulation on outpatient bundling, SEP:141
- HCFA deletes procedures from ASC-approved list, MAR:32
- HCFA issues 3.5% increase in ASC payment rates, NOV:172
- Outpatient surgeons likely to shift sites under RBRVS, APR:71
- The \$10 million question: Are you ready for APGs? OCT:145
- Use ratios to keep abreast of center's financial direction, MAY:83

- Warning: APGs may lead to Medicare managed care, MAY:77

Freestanding centers

- Additions to ASC list could financially wound hospitals, MAR:29
- FASCs may avoid paperwork under accrediting change, MAY:86
- FASCs should assign staff responsibility for QA, MAR:57
- HCFA deletes procedures from ASC-approved list, MAR:32

Infection control

- ASCs must develop plan for bloodborne pathogens, APR:66
- Hospital shares \$25 solution for heating disinfectant, SEP:140
- Include these steps in training program, APR:69

Laparoscopy

- Is laparoscopic cholecystectomy too good to be true? AUG:117
- New form helps determine qualifications for credentials, AUG:120
- NY department suggests criteria for training, AUG:119
- Stapler reduces OR time for endoscopic procedures, JUN:102

Management/marketing

- Aim marketing efforts at physicians, offices, JUL:113
- ASCs must develop plan for bloodborne pathogens, APR:66
- Don't put marketing on the back burner, SEP:138
- Emphasize both cost and care in managed care contracts, APR:64
- Include these steps in training program, APR:69
- Use videos to market surgery center to customers, FEB:20

Medicare

- Additions to ASC list could financially wound hospitals, MAR:29
- ASC lithotripsy rates back at square one after ruling, AUG:131
- Coding plays critical role in surviving new payment system, OCT:148
- Half of hospitals may lose with outpatient PPS proposal, APR:61

HCFA delays regulation on outpatient bundling, SEP:141
 HCFA deletes procedures from ASC-approved list, MAR:32
 HCFA issues 3.5% increase in ASC payment rates, NOV:172
 Outpatient surgeons likely to shift sites under RBRVS, APR:71
 RBRVS alters coding for outpatient surgery, APR:74
 Surgery centers await directive on rate updates, MAY:88
 The \$10 million question: Are you ready for APGs? OCT:145
 Warning: APGs may lead to Medicare managed care, MAY:77

Nursing staff

Administrators share tips on staffing recovery care, DEC:181
 Be forewarned: Pathways may require numerous revisions, OCT:152
 Center finds way to keep motivation, quality high — cash, JUN:92
 Consider cross training for staffing flexibility, OCT:156
 Extended recovery care: A nurse's perfect job? DEC:180
 Follow these suggestions for effective cross training, OCT:158
 LOS reduced one hour with critical pathways, OCT:150
 Outpatient surgery nurses report salary compression, NOV:Suppl.
 Productivity standards can help justify adding nursing assistant, MAY:80
 Professional performance added to nursing standards, JUN:100
 SDS units produce special risks for nursing liability, MAR:55

Ophthalmic procedures

Orcolon recall points to need for fixed notification process, JAN:10

Pain

Could pain management be the next big profit center? NOV:161
 New standard: Don't be stingy with the pain medication, JUN:89
 Techniques can help control pain for pediatric patients, NOV:169
 Technique may reduce need for drugs, hasten recovery, JAN:1

Patient education

New standard: Don't be stingy with the pain medication, JUN:89

Techniques can help control pain for pediatric patients, NOV:169

Patient and family relations

Communication tips may avert misunderstandings, malpractice, JAN:8
 Experts: Focus surveys on patients' experiences, FEB:24
 Experts offer care tips for disabled persons, JAN:7
 Same-day surgery's newest 'customers': Waiting families, SEP:133

Pediatric care

Providing pediatric care isn't always child's play, NOV:167
 Techniques can help control pain for pediatric patients, NOV:169

Plastic surgery

Breast implant restrictions limit augmentation options, JUN:99
 Manufacturers, registries assist breast implant patients, APR:70
 Surgery centers wrestling with breast implant publicity, MAR:32

Preoperative

admission/care/testing

CQI process reduces number of pre-op visits, AUG:121
 New standard: Don't be stingy with the pain medication, JUN:89
 Providers, payers butt heads over admission prior to surgery, NOV:164
 Surgery centers tackle new realm with higher acuity patients, JUL:105
 Take steps to avoid allergic reactions to latex, FEB:22

Productivity

Productivity standards can help justify adding nursing assistant, MAY:80

Quality assurance/quality improvement

Center finds way to keep motivation, quality high — cash, JUN:92
 CQI process reduces number of pre-op visits, AUG:121
 FASCs should assign staff responsibility for QA, MAR:57
 Joint Commission's latest move is toward traditional QA, DEC:186

Outpatient department reduces late patients to 3%, OCT:153

Recovery care

Administrators share tips on staffing recovery care, DEC:181
 California participants share lessons learned in project, DEC:183
 Centers face opposition on recovery care front, JUL:108
 Determine community need before launching RCC, DEC:176
 Extended recovery care: A nurse's perfect job? DEC:180
 Hospitals and recovery care: A love/hate relationship, DEC:178
 Recovery care: Do you know where to start, DEC:173
 Surgery centers share recovery care tactics, JUL:111

Risk management

Communication tips may avert misunderstandings, malpractice, JAN:8
 Orcolon recall points to need for fixed notification process, JAN:10
 Physician self-referral: Love it or leave it? SEP:136
 SDS units produce special risks for nursing liability, MAR:55
 Surgery centers wrestling with breast implant publicity, MAR:32

Salary survey

Outpatient surgery nurses report salary compression, NOV:Suppl.

Scheduling

CQI process reduces number of pre-op visits, AUG:121

Surgeons

Aim marketing efforts at physicians, offices, JUL:113
 Is laparoscopic cholecystectomy too good to be true? AUG:117
 New form helps determine qualifications for credentials, AUG:120
 NY department suggests criteria for training, AUG:119
 Outpatient surgeons likely to shift sites under RBRVS, APR:71
 Physician self-referral: Love it or leave it? SEP:136
 Stapler reduces OR time for endoscopic procedures, JUN:102
